2004-2005 Crop Year

Unlike last year, it looks like the BSE issue may finally be resolved. Young live cattle are crossing the border and our Canadian beef is being welcomed again with open arms. But, just like last year, grain producers continue to struggle with CAIS program paperwork and a continuation of lower grain prices.

Since Market Master has now been in the grain marketing business for 10 years, I reflect back to compare our industry then, and now:

10 Years Later ...

	Fall 1995	Fall 2005
Inputs		
purple diesel	23 cents/litre	80 cents/litre
4600	\$235/MT	\$475/MT
1152	\$373/MT	\$450/MT
Grain Prices		
feed barley	\$2.70	\$1.85
feed wheat	\$4.40	\$2.40
milling oats	\$2.50	\$1.55
feed rye	\$3.50	\$2.00
canola	\$9.60	\$5.25
feed peas	\$5.70	\$2.90
green edible peas	\$7.10	\$3.00

Special congratulations to our "Famer of the Year" for 2004-2005—**Kevin Armitage**. Kevin and Shelley live in the Camrose area and also farm in Kinsella.

(After knowing some of our farmers for as long as we've been in business, it becomes eerie watching people grow up, get married, and have children. Young boys who used to hold their father's hand are now calling to ask about grain prices!)

In January 2006, we welcome **Peggy Hull** as the newest full-time member of our staff. Please feel free to give her a hard time!

Shelley

GPO's Work!

A **Grain Pricing Order** is a firm commitment by the producer to sell a certain quality and quantity of grain, at a certain time, for a certain price.

When the target is reached, the grain is automatically sold!
